

# Fiber Optic Patch Cable

Single fiber cables or Patch Cables are the simplest fiber optic component. The Fiber Optic Patch Cable is for moving light from one place to another. They have less loss compared to a bundle of fibers due to no “packing factor” loss. A wide variety of customer specified end terminations are available including most connectors and custom ferrules

Part Number	Price (1m)	Price additional 1m	Description
<i>UV VIS</i>			
PU-100-1	\$95	\$5.00	100um core UV/VIS fiber 1m long
PU-214-1	95.00	5.00	214um core UV/VIS fiber 1m long
PU-400-1	105.00	21.00	400um core UV/VIS fiber 1m long
PU-600-1	121.00	44.00	600um core UV/VIS fiber 1m long
PU1000-1	194.00	73.00	1000um core UV/VIS fiber 1m long
<i>VIS NIR</i>			
PN-100-1	\$105.00	\$10.00	100um core VIS/NIR fiber 1m long
PN-200-1	105.00	10.00	200um core VIS/NIR fiber 1m long
PN-400-1	116.00	24.00	400um core VIS/NIR fiber 1m long
PN-600-1	121.00	58.00	600um core VIS/NIR fiber 1m long
PN-1000-1	200.00	84.00	1000um core VIS/NIR fiber 1m long
